

MERCEDES BENZ RETAIL

UK Nationwide

MERCEDES BENZ RETAIL

LOCATION: UK Nationwide (12+ Locations)

CLIENT: Mercedes Benz

VALUE: £160k+ per store

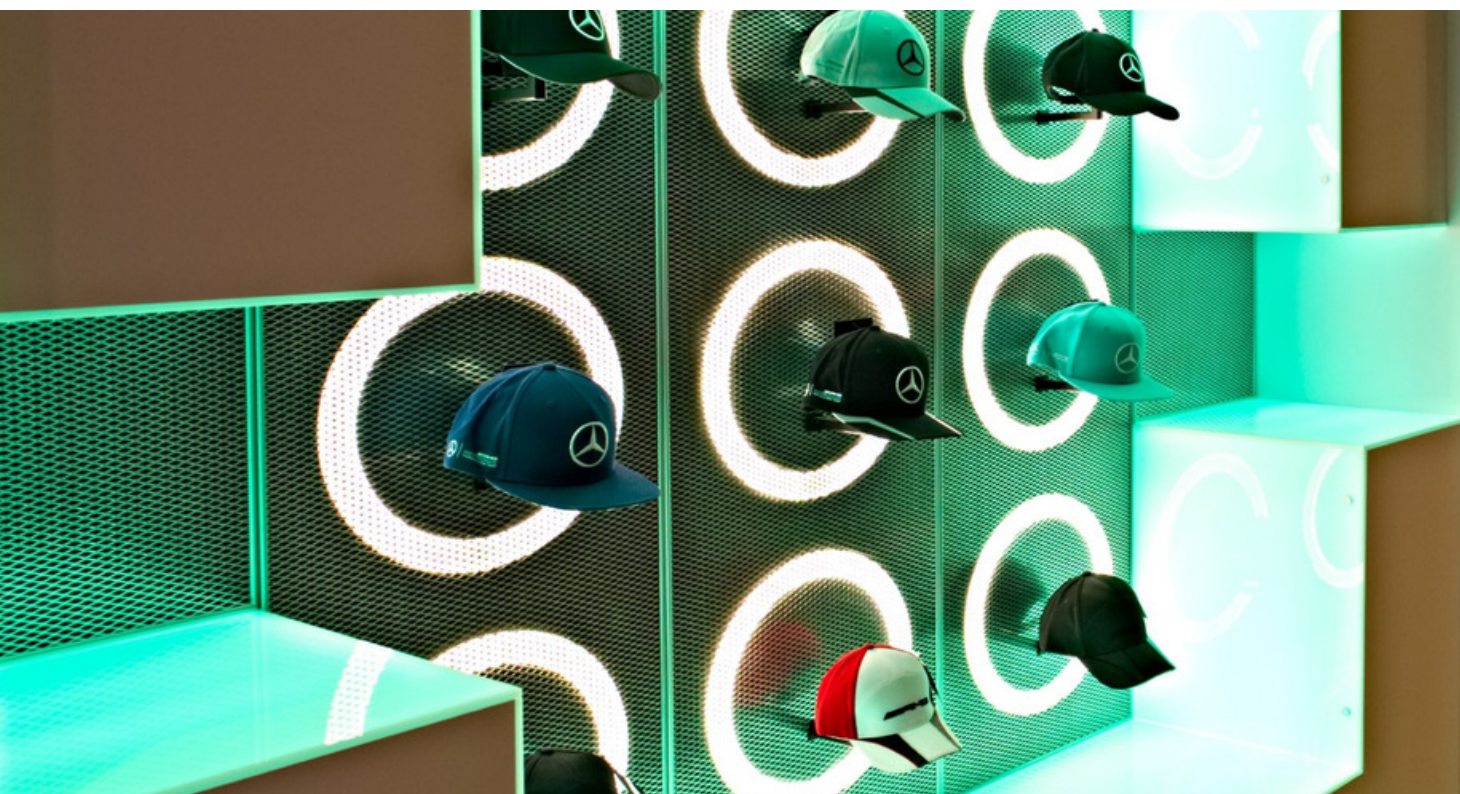

Gariff have now worked on a total of 12 pop up retail outlets around the UK for Mercedes Benz in conjunction with Green Room Design. The full fit-out package for the client provided all made-to-measure retail display furniture that was built in our manufacturing facility then installed on site by our specialist joinery team. All electrical features such as backlit apparel display units, illuminated entrance portals and colour changing feature car plinths were detail designed and installed in collaboration with our specialist contractor Coda Electrical. We also work with the client to disassemble the outlets and store the elements until the next pop up is ready for installation.

TYPE: Retail

ARCHITECT: Green Room Design
